

eclipse chocolate: wedding & celebration cake orders

our scrumptious custom cakes are baked onsite from scratch, using all-natural ingredients. each begins with three layers of chocolate or vanilla butter cake bursting with exotic fillings. cakes are then capped with a lavish layer of chocolate ganache or swiss vanilla bean meringue, & finally topped with unique garnishes. any combination of flavors can be selected to create a decadently stacked three-tier cake crusted in caramelized white chocolate, which is ideal for larger celebrations. individual "cake cups" are also available for enjoyment of multiple flavors or to accompany a display cake. we happily welcome custom flavor concepts, & gluten-free options are available upon request.
